1.2 Reason of Upgrade

Fix known defects and optimize product performance.

1.2.1 New Features

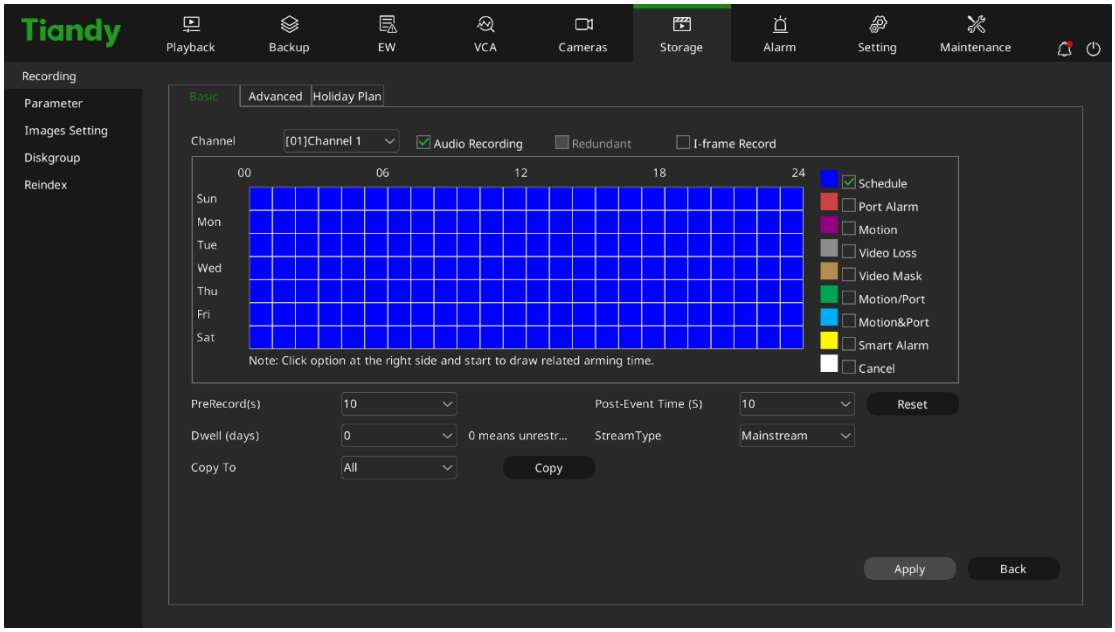

1. Adjust the background color and style of the GUI interface, simplify the startup interface, and make the screen more concise and beautiful.

下载时间2024-02-26 16:39:12
天地伟业技术有限公司 张玉倩

下载时间2024-02-26
天地伟业技术有限公司 张玉倩

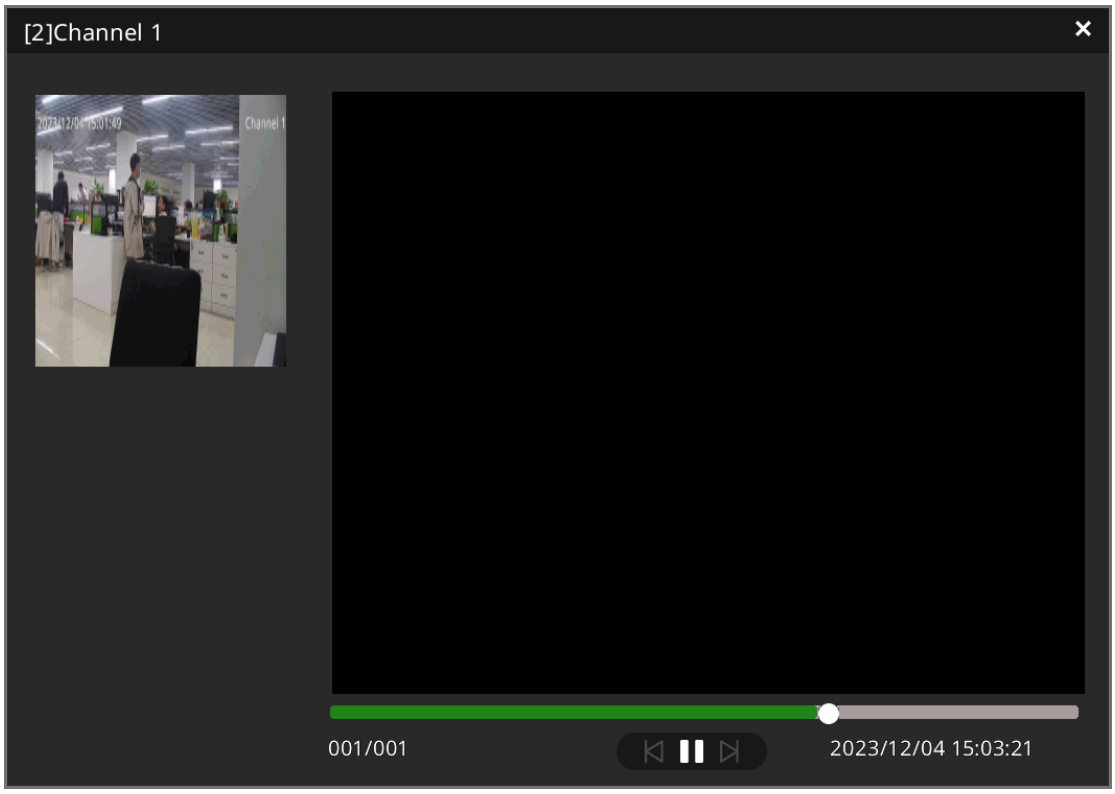

2. The NVR: UI preview interface that supports target detection has added intelligent analysis (trip line, perimeter, double trip line) alarm image display function.
   a) The UI supports viewing real-time and historical detection results, selecting recipients in real-time, and intelligently analyzing data; Historical support for screening based on human or intelligent analysis;
   b) The displayed content includes: intelligent analysis type, target type (person, vehicle, other), and alarm time;

   c) Double click on the image with the mouse to display the video playback of the large image and its time.

天地伟业技术有限公司 张玉伟

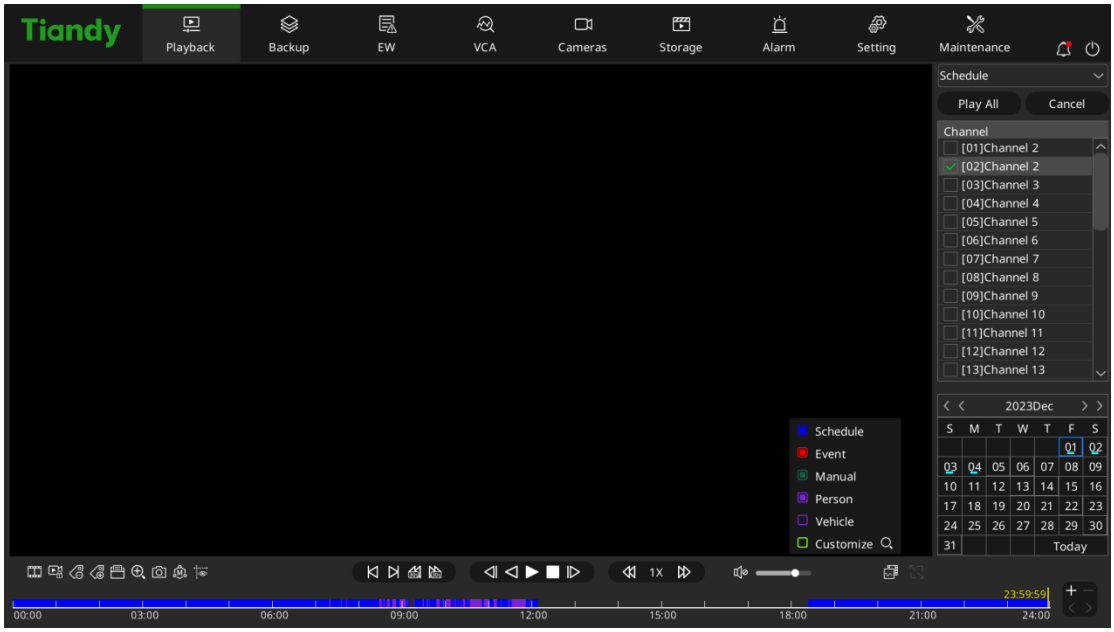

3. UI preview interface switching with simple startup wizard and preview interface style.

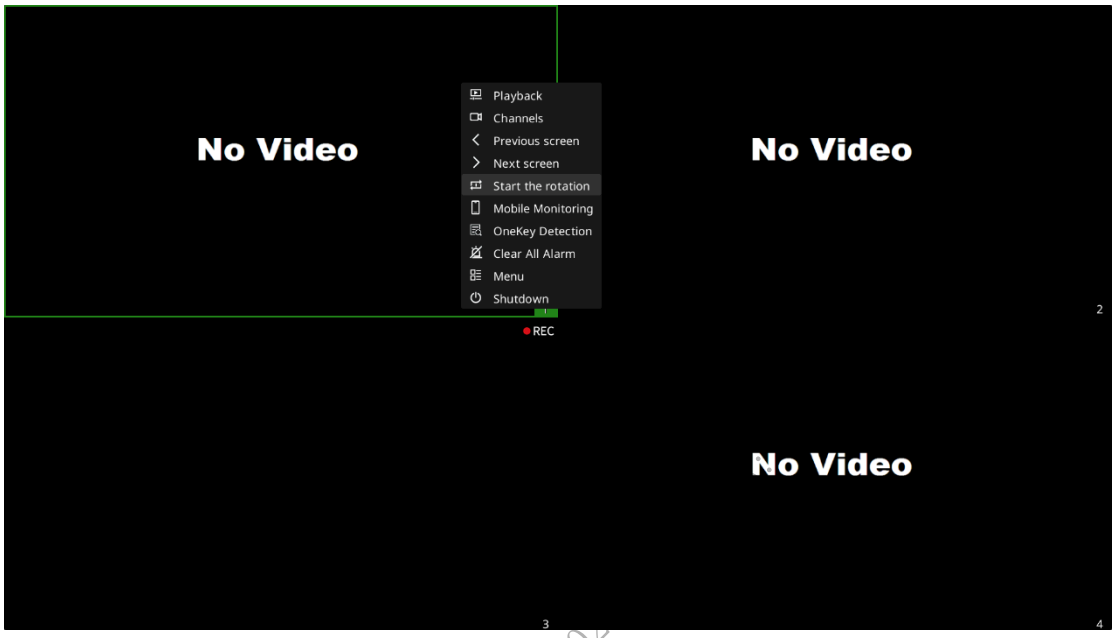

4. NVR (Appendix 1.)supports playback and recording, which can be distinguished and queried according to the target person and vehicle. To use this function, it is necessary to add an IPC that supports intelligent analysis algorithms for human vehicle targets, and to intelligently analyze alarms and link the recording of this channel.

天地伟业技术有限公司 张玉伟

5. Remove “format disk” from the right-click menu of the mouse, increase screen switching, and increase usability.

6. Add time to the last window which has no channel at all. It works for cases when windows quantity is more than channels.

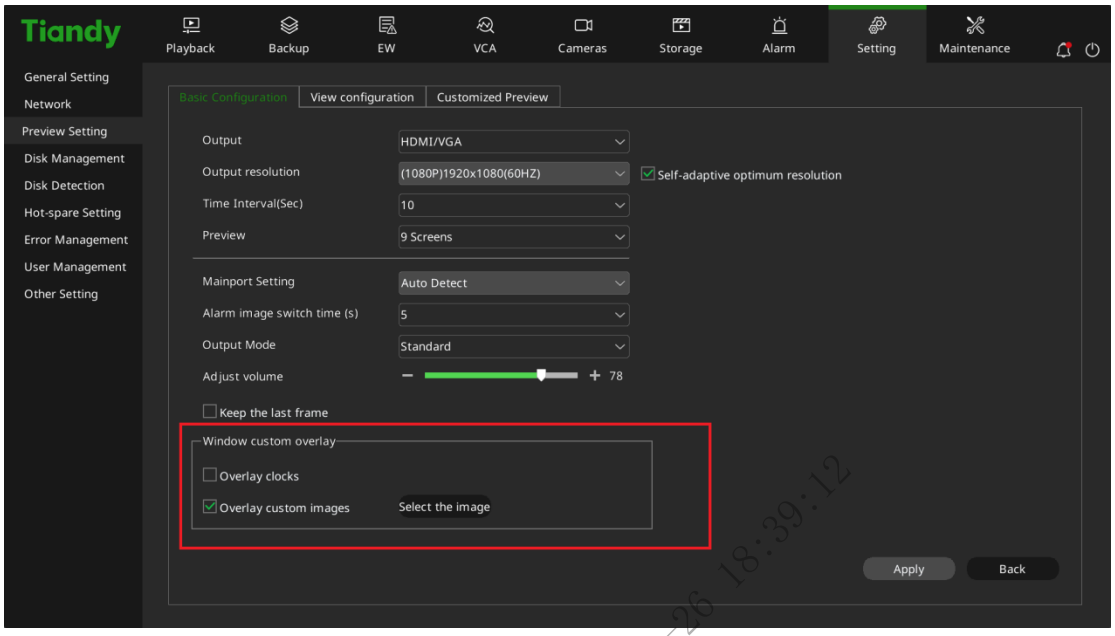

a) The clock is displayed in minutes.

b) Lite k NVR supports the function of stacking custom logos. The same window supports selecting clock or custom logo stacking.

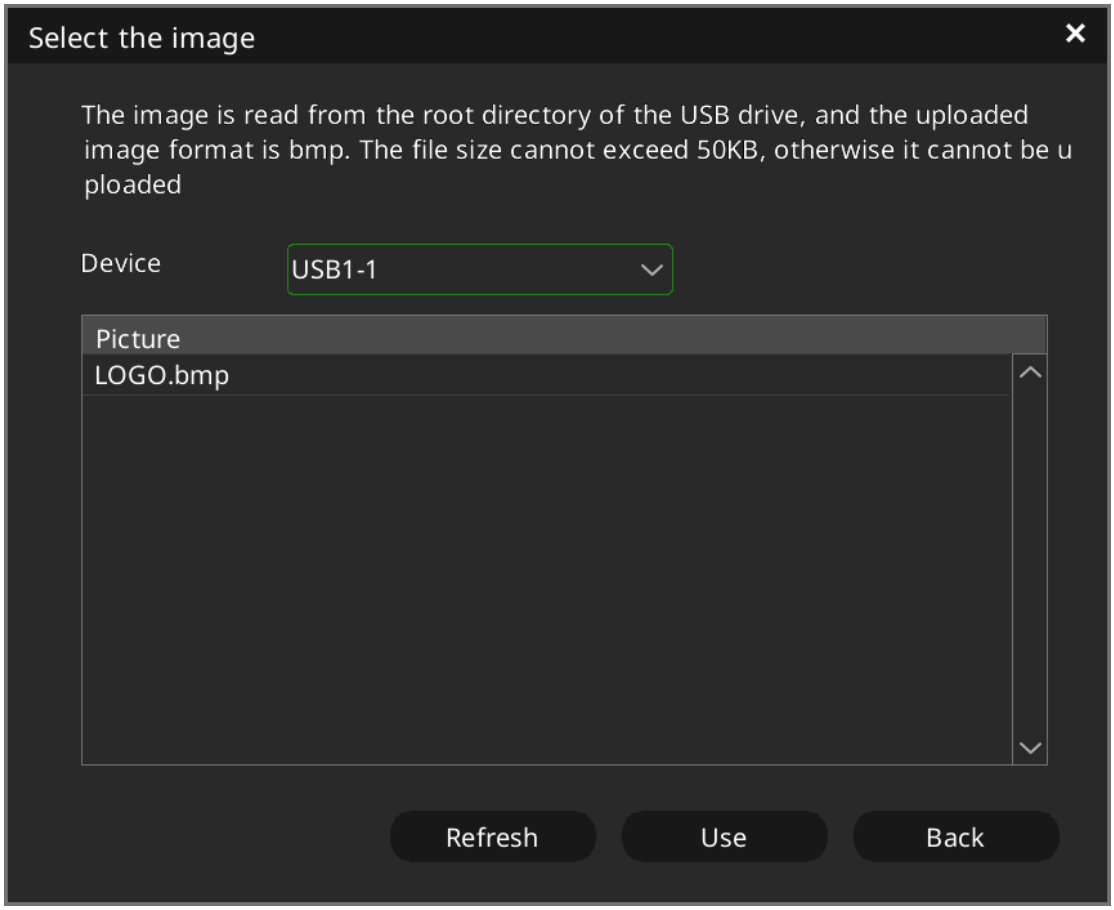

c) 1, 2, and 3 screens do not support stacking.

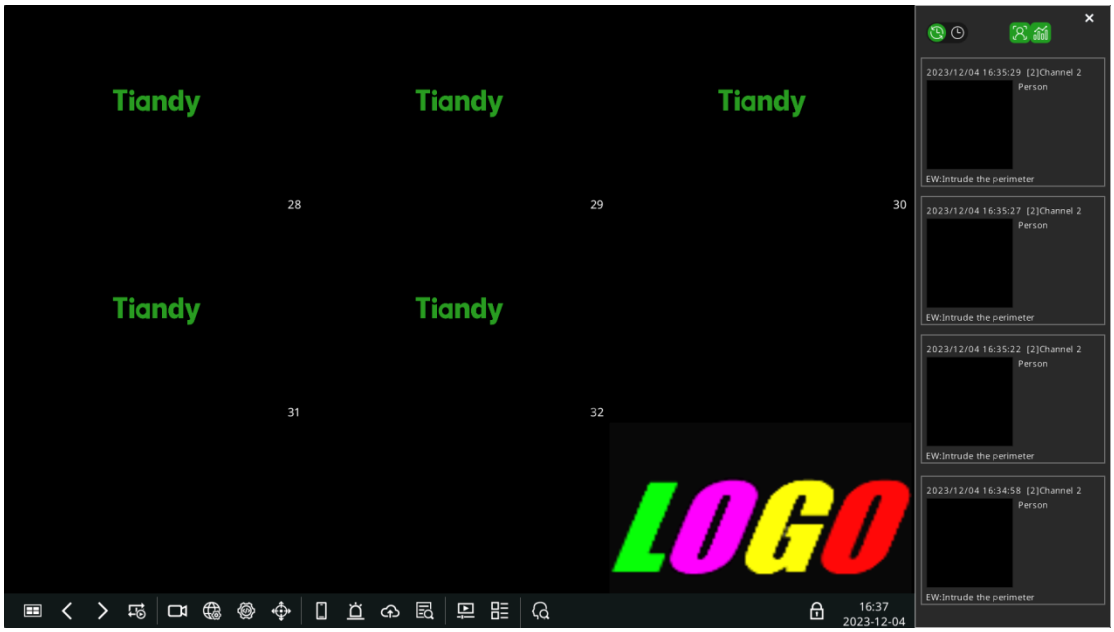

天地伟业技术有限公司 张玉倩

7. FTP usability improvement: NVR's FTP interface adds a button to test if the FTP server can connect or not.

天地伟业技术有限公司 张玉伟

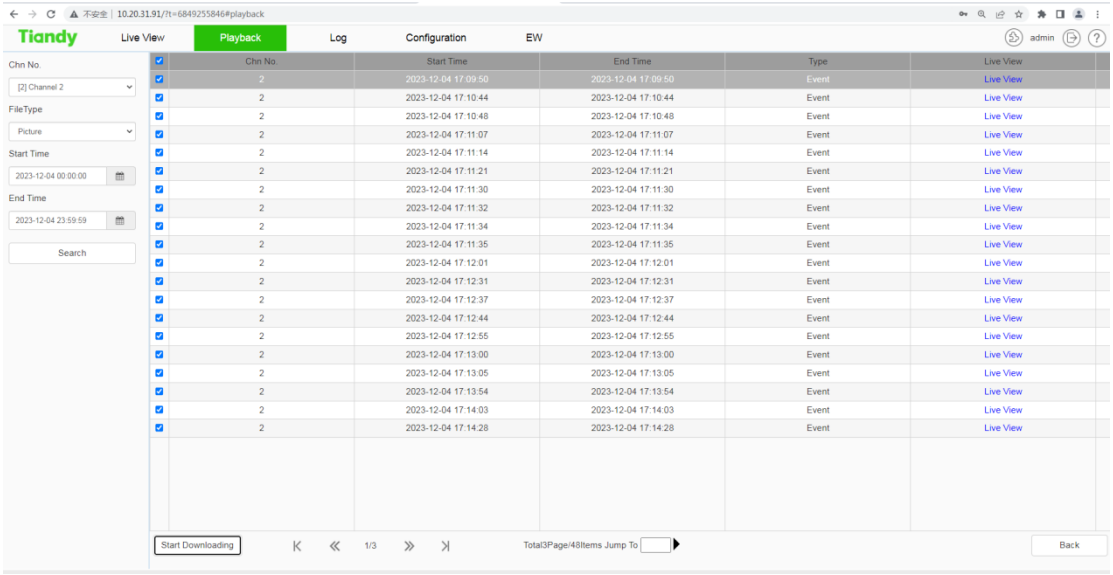

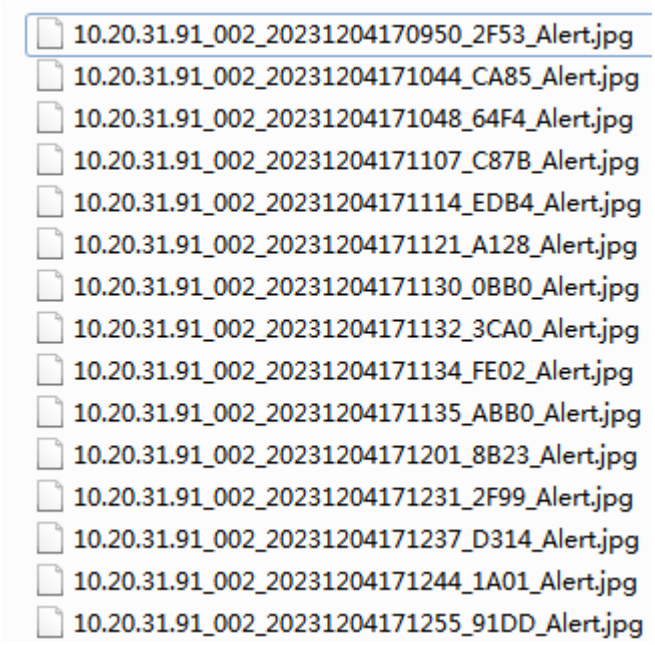

8. The web preview interface of NVR needs to display all added cameras (including online and offline).

9. The captured images of NVR events need to be changed to the following format: NVR IP+channel NO+capture time+sequence code+event name (Appendix 2).

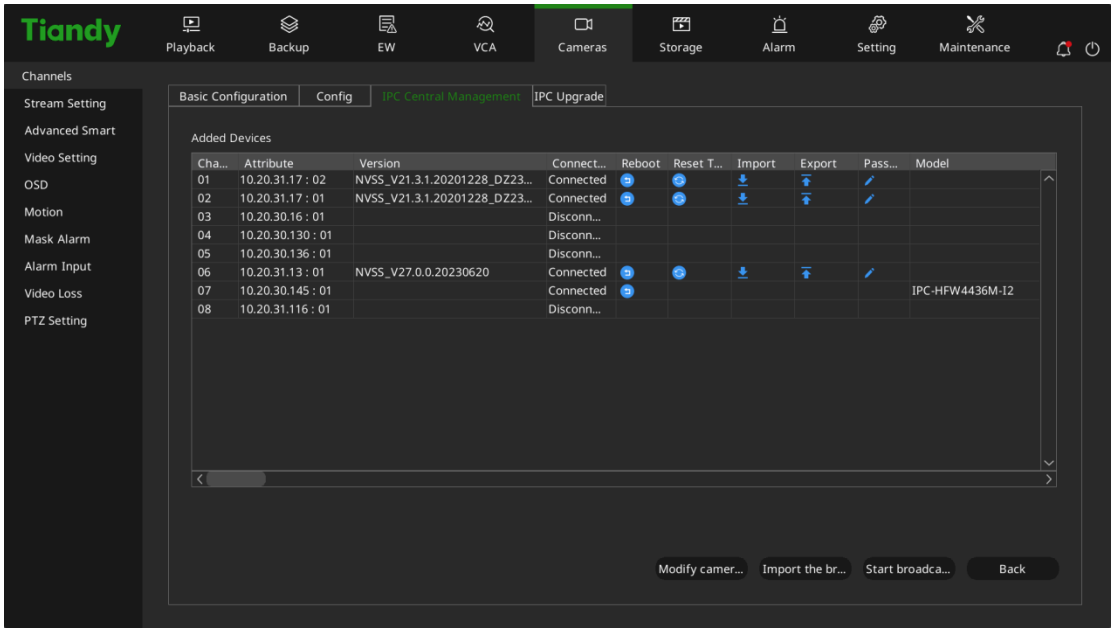

下载时间2024-02-26
天地伟业技术有限公司 张玉倩

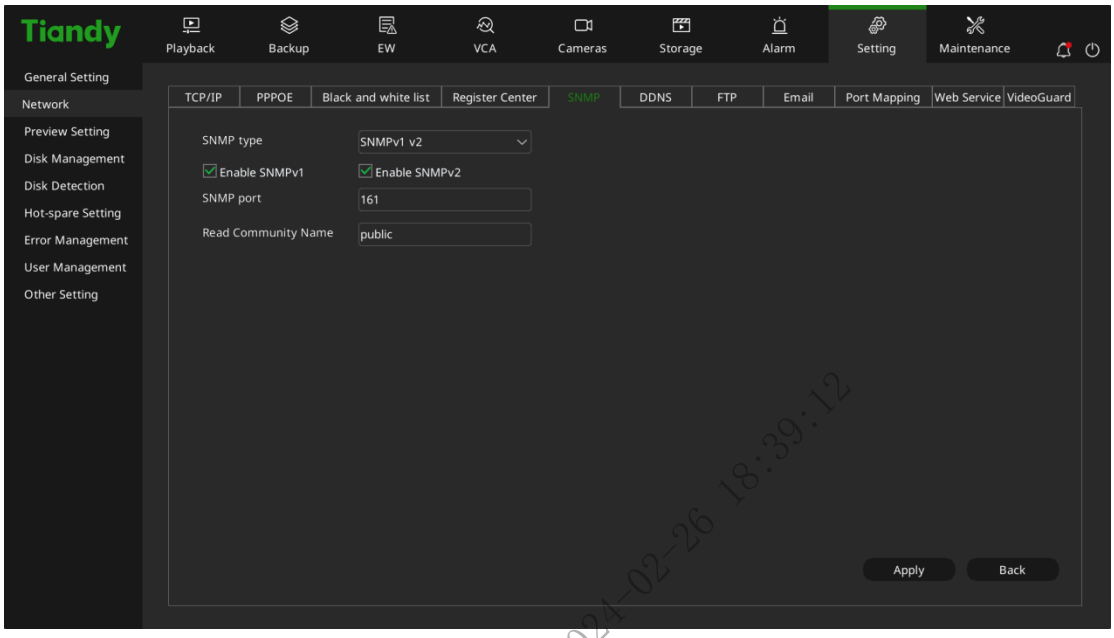

10. The NVR displays the model name on the IPC control management interface.

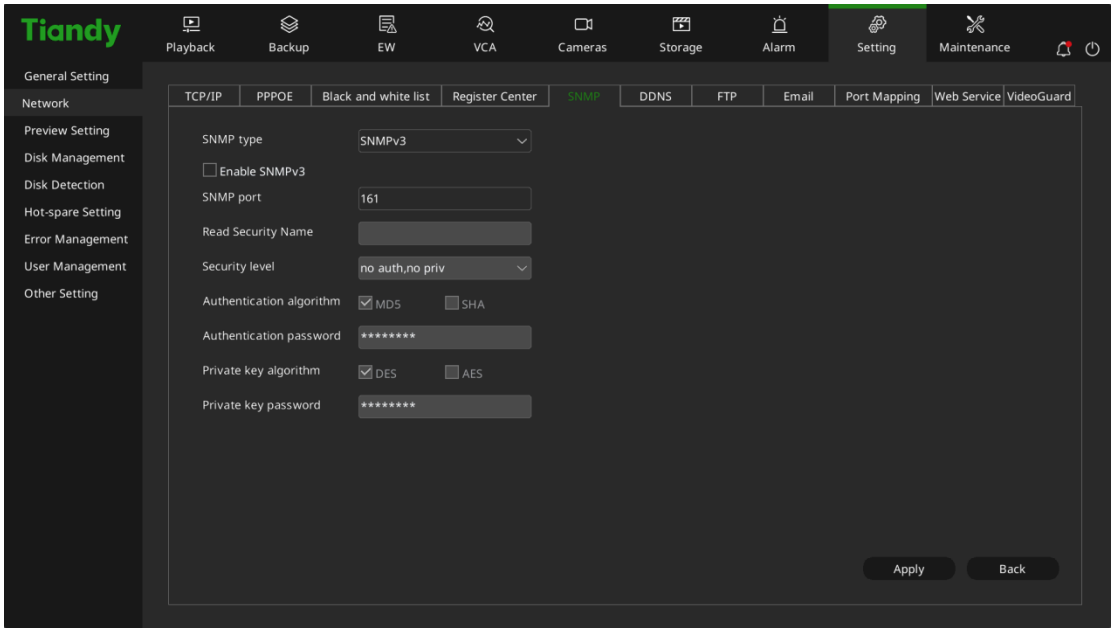

下载时间2024-02-26 18:39:12
天地伟业技术有限公司 张玉倩

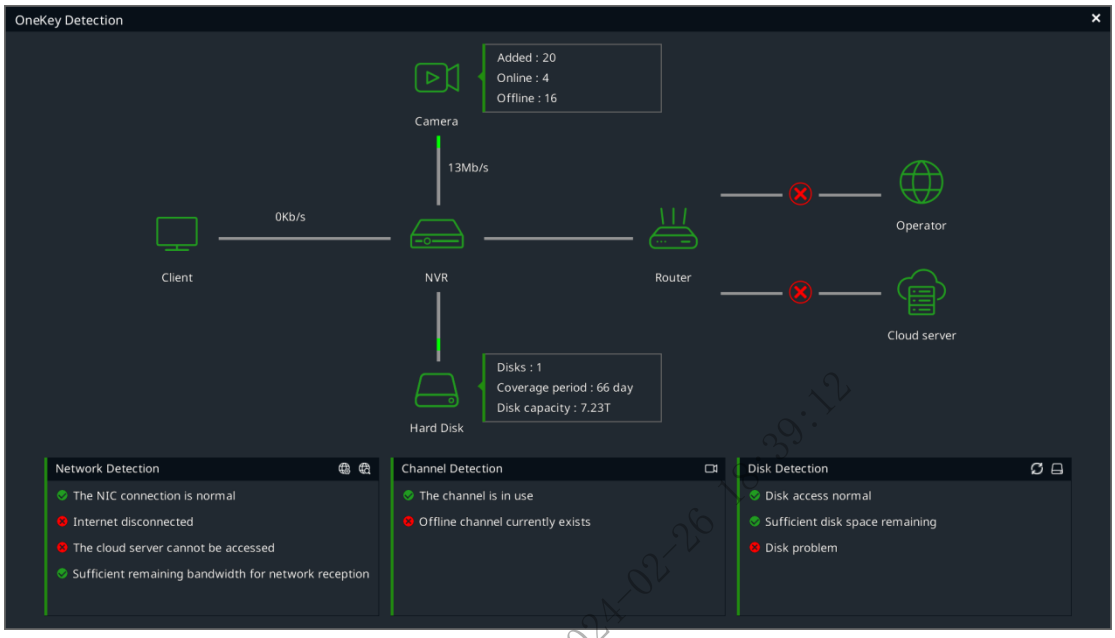

11. SNMP security improvement: lite-k NVR has added support for v2 and v3 protocols, and WEB and UI have added configuration and switch options.

下载时间2024-02-26 18:39:12
天地伟业技术有限公司 张玉倩

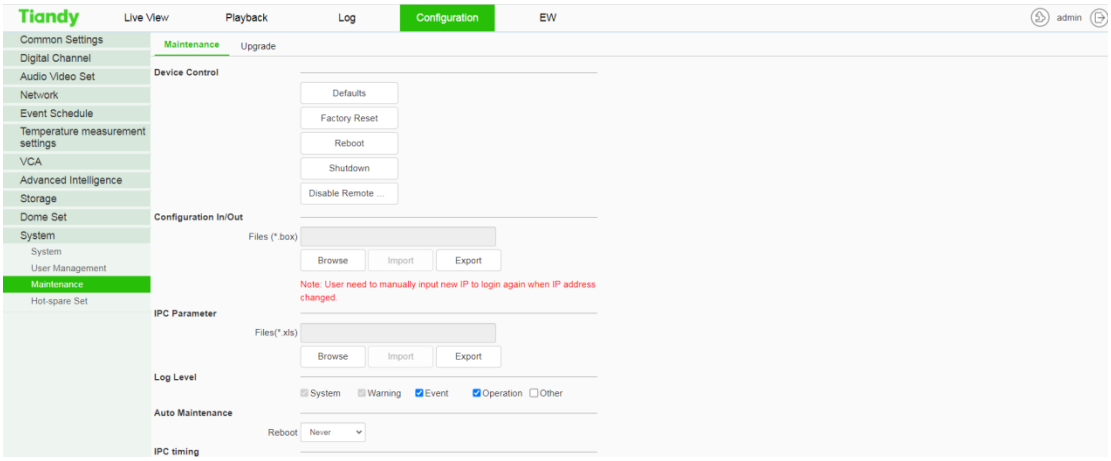

12. Add device physical examination function to the UI of NVR, and output test report, including: network, hard disk, app online status

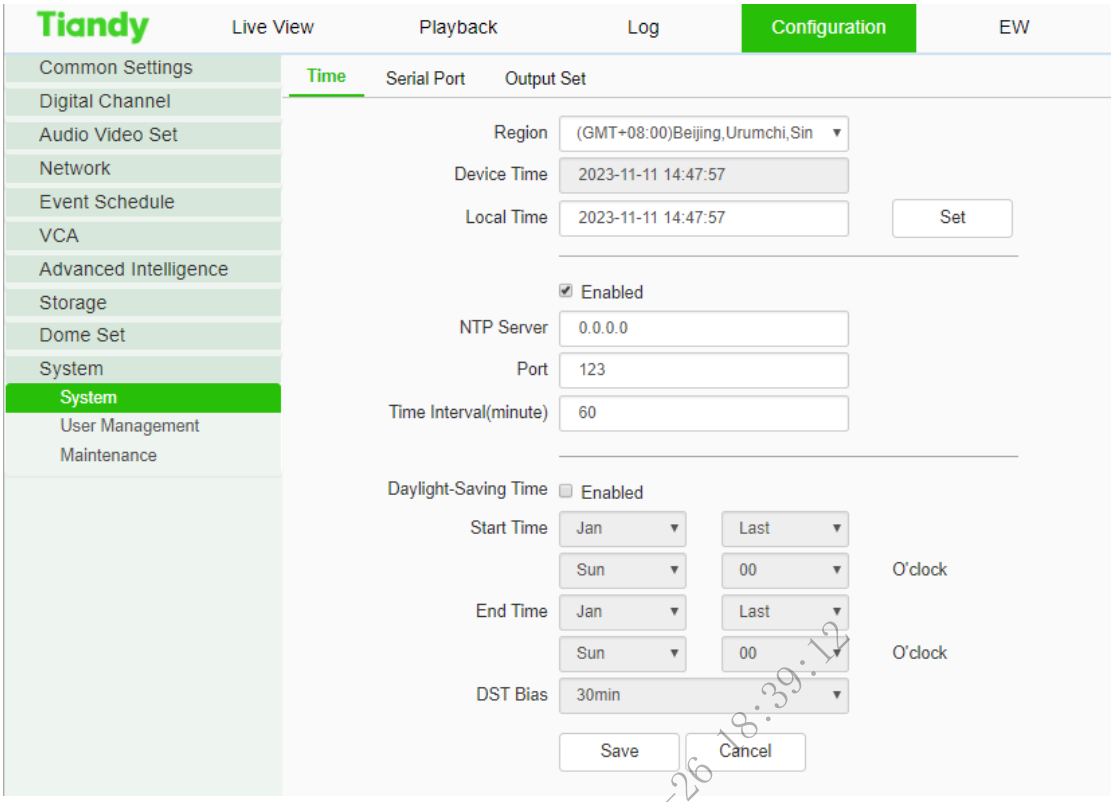

13. The WEB interface has added a factory reset function, which can restore the NVR IP.

下载时间2024-02-26 17:39:12
天地伟业技术有限公司 张玉倩

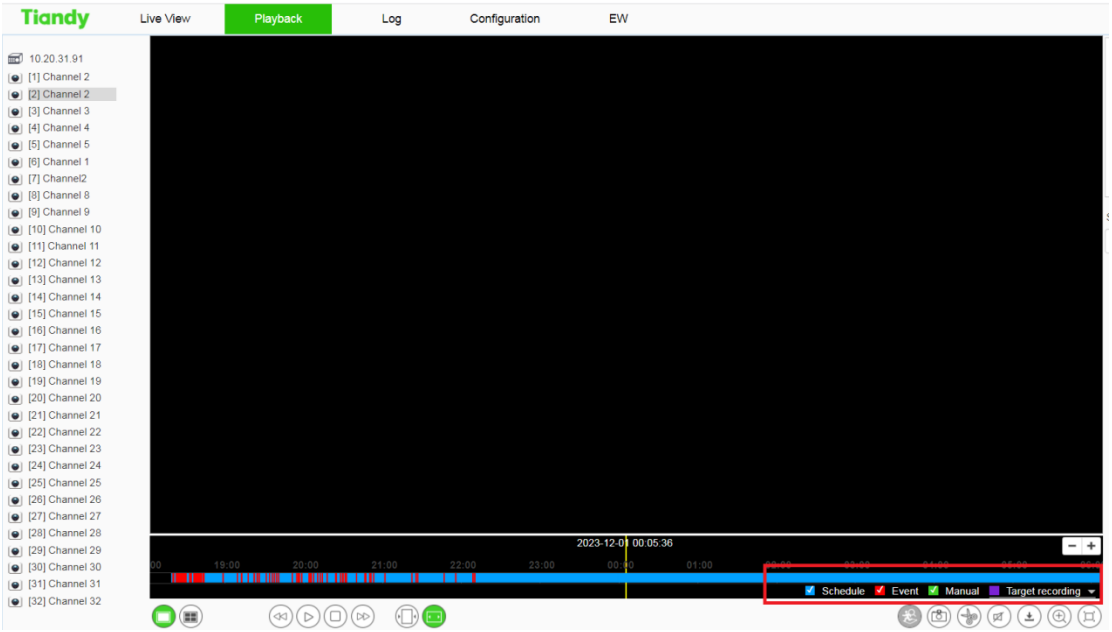

14. Add device time display on the WEB.

15. The web video playback interface of NVR allows for video filtering on the timeline based on four categories: "event", "scheduled", "manual" and “Target recording”, which includes both “people” and “cars”.

下载时间2024-02-26 18:39:12
天地伟业技术有限公司 张玉倩

16. When the video recorder modifies the camera IP address, the "IP modification failure" caused by incorrect username and password will be changed to "incorrect username and password".
17. Add Albanian language to the 128M web and UI interface.
18. When setting up the web and UI interface of NVR at GMT+3, the corresponding time zone displays the city of Baghdad as an additional city.
19. UI adds the ability to modify channel sorting through drag and drop actions, simplifying the first deployment operation steps
20. Video recorder UI interface, right-click on playback to directly locate the current channel.

1.2.2 Fixed bugs

None

1.2.3 Pending Issues

None

1.3 Update Guide

1. You can upgrade the NVR by SearchConfigTool, web and USB flash drive. For details, see Upgrade Guide.

2. Services such as recording and live view will be paused during the upgrade process. The NVR works normally after upgrade and rebooting.

3. The upgrade does not affect previous settings of the NVR.

4. Do not power off during the upgrade process, or the NVR will not boot up properly.
